2 jurisdictions running side by side concurrently and thru all 3 forms of law simultaneously ... all under “contract” (via free will) between the “creator” [Declaration of Independence: private trust assets] and the “fallen angel” [Constitution: public trust assets] ... one is the “incidental beneficiary”

The “Declaration” is founded upon Job 32:21-22 and the Constitution [the Public] operates in accordance with Job ... the public is Satan’s world of which God promised him he could rule and we assure the fulfillment on that promise through the “sacrifice” of our “salvation” [our usufruct] to the public through CHRIST [NAME] with a firm reliance upon divine Providence in support of the Declaration and in doing so, the public [Satan] will ensure one is free from “dis-ease” while one remains down here just so Satan can continue to tempt one ... public / state [everyone and everything other than you] is the “intended beneficiary”

good ... evil ... those are “judgments” one is not “authorized” to render as that is “God’s jurisdiction” and his alone ... the tree of knowledge of good and evil is the tree of judgment and judge not lest ye be judged ... the curse upon the sons and daughters of Adam ... the fruit of the sin [genesis 3] and Abraham’s bloodline is the heir for he put his only son on the altar but God spared the son because the son was a “gift from god” and finally, God sent his “only begotten son” [Christ] to redeem the sins of the rest of man to create a more “perfect union” [Christ consciousness] within man as we are all here to learn to be “creators”
